CANADIAN APPLES

In Great Britain

A recent issue of the Census and Statistics Monthly, published by the Dominion Department of Agriculture, contains a copy of the annual report of Mr. Jas. A. Findlay, Cargo Inspector for the Department at Glasgow, Scotland, for the year ending March 31st last, in which interesting references are made to Canadian fruit on the British market and specifically to British Columbian boxed apples.

We quote as follows—

"Apples.—The Canadian apple trade with Glasgow this season has been of an unsatisfactory nature, the importations being the smallest on record for a considerable number of years; the quality also was disappointing. At moment of writing barely 81,000 barrels and 15,330 cases have arrived, as compared with last year's totals of 312,165 barrels and 31,848 boxes from Ontario and 38,604 barrels and 180 boxes from Nova Scotia. There were no direct shipments this season from Nova Scotia, though a few hundreds arrived in Glasgow via London by rail and coasting steamer. This shortage from Canada was partly met by increased arrivals from other sources but not in sufficient quantities to supply the demand, consequently prices ruled higher on the average for all varieties than during the 1909 season. The shortage mentioned resulted in larger importations of barrel stock from various districts of U. S. A., Virginia, Maine and Western States. The Virginia fruit was of excellent quality; Maine Baldwins very fair but Western apples poor in size and quality. Larger quantities of box fruit from California, Oregon, Washington, etc., arrived; the Oregon Newtown and Spitz have been of excellent quality and pack and received universal praise.

"Condition.—The condition of Canadians on arrival throughout the season was generally very fair; a few parcels among the early summer fruit arrived over-ripe and towards the end a small percentage indicated frost effects. With these exceptions arrivals were in sound order as a rule. The quality, as stated, was unsatisfactory; the high prices conduced to shipment of somewhat inferior grade and generally the pack was irregular, very few parcels of choice fruit arriving. Good winter stock was very scarce. Baldwins generally lacked colour. Spys throughout lacked colour and keeping quality, and were also scarce. The feature of the Ontario shipments was the pack of the Norfolk fruit-growers, several of their shipments being of choice grade and quality. The Newcastle fruit-growers also placed one or two good parcels this market; these with a limited few smaller shippers forwarded reliable fruit.

"Boxes.—The box apple trade of Glasgow is one of increasing dimensions, and this year's trade indicates that Glasgow offers an outlet for a large proportion of high-class boxed fruits at all periods of the recognised apple season; boxes containing apples characterised by uniformity of size and colour, with skins free from blemish and clean for the variety, fairly bold in size—but not exceedingly so nor irregular in shape so as to be deemed coarse—will return to shippers a much enhanced price over the barrel equivalent. The barrel, I presume, will always retain its place as the popular commercial package, but very large quantities of boxes were shipped here from the United States districts this season, influenced no doubt by the scarcity of Ontario and Nova Scotia barrel supplies. Buyers are becoming increasingly discriminating regarding value of appearance and if Ontario orchardists are going to capture and retain a portion of this high-class box trade, decidedly more scientific care of orchards and more

CITY COUNCIL

Grants \$500.00 For Advertising

All the members of the Council were present at the regular weekly meeting on Saturday evening.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct:

Drs. Keller & McNaughton, professional services	\$ 5.00
Power House staff, salaries, May	410.00
I. MacRae, Constable, salary, May	80.00
D. Mills, Scavenger, salary, May	150.00
P. T. Dunn, assistant clerk, salary, May	50.00
G. H. Dunn, salary and petty cash, May	129.65
Dr. H. L. A. Keller, rent of Council Chamber, May	15.00
Kelowna Land & Orchard Co., rent of nuisance ground for year ending April 30, 1911	50.00
Western Municipal News, Burial Permit and Cemetery Licence Book	18.00

The matter of extending the city wharf again came up for discussion. Ald. Dalgleish wanted to know what benefit the wharf would be to the city at large.

Ald. Leckie did not think anything could be done as the wharf heads straight into the Power House, and an approach would have to be built to render it fit for public use.

The other aldermen agreed with Ald. Leckie's views, and no action will be taken in the matter.

The Mayor announced that an arrangement had been entered into with Mr. E. Weddell for the purchase of 66 ft. of his property on Bernard Ave., at a cost of \$2,500, being the land necessary for the extension of St. Paul St. to Bernard Ave. The work of making the street would be carried out at an early date. The Mayor considered the price agreed upon very reasonable, considering the location of the property. It would have to be decided whether the necessary loan should be spread over 10 or 25 years. The by-law would go through the usual procedure and be advertised.

The Mayor stated the various committees hoped to have their estimates complete by next week.

Tenders for plank sidewalks on Ellis St., St. Paul St. and Doyle Av. were opened and were referred to the Board of Works for recommendation as to acceptance. The figures submitted were as follows: John E. Todd, 31 cents per lineal foot; D. H. Hinsley, 31 cents per lineal foot; L. Mawhinney, 33 1/2 cents per lineal foot; E. J. Pettigrew, separate tender on each street, 33 cents per lineal foot, or all streets, 32 1/2 cents per lineal foot; J. A. Bigger, 35 cents per lineal foot.

A deputation from the Board of Trade, consisting of Messrs. W. E. Adams, J. B. Knowles and G. A. Fisher, waited on the Council to present the claims of the Board for a grant for advertising purposes.

Mr. Adams, who acted as spokesman, said the Board had not received much from the City during the past two years, while other Boards had been receiving from \$500 to \$1,500 from the Councils of their towns. It was necessary to keep the name of Kelowna before the public, and the Board hoped the Council would make a liberal grant, say \$750, so that the town could be properly advertised.

Mayor Sutherland expressed the desire of the Council to do all that was possible to assist the Board, but the spirit was willing while the finances were weak.

Ald. Jones suggested that the deputation might make a statement as to the purposes for which the grant would be used.

In reply, Mr. Adams stated that new booklets were badly required. The issue of two years ago was nearly exhausted and besides was out of

date, so that any remaining copies contained what was really misleading information and illustrations, owing to the advance in the price of land since publication and the growth of young orchards. The Board proposed to issue about 2,500 each of two sizes of booklets, illustrated throughout with entirely new cuts and the information contained in them would be brought up to date. It was also contemplated to put framed groups of photographs in various cities, placing them in the most prominent positions obtainable, such as, for instance, the Agent-General's office, London, and in Montreal, Winnipeg and Calgary. The sign on the C. P. R. wharf would also be replaced at a cost of \$40 or \$50, and some other advertising schemes were under consideration.

Ald. Cox stated he had noticed that in the hotel at Sicamous nearly all the information supplied was about Vernon.

Mr. Adams recognised the necessity of placing a supply of literature at Sicamous. He reiterated the need of assistance from the Council in advertising the City, otherwise it would have to be left alone this year.

Mr. Fisher stated that the Board had spent already this year \$100 on advertising.

Ald. Dalgleish suggested that the real estate firms should contribute towards the advertising campaign.

Mr. Adams retorted that the real estate firms were already doing more than their share, although they reaped only the temporary benefit obtained through land sales, while the merchants received permanent benefits through increase of patronage due to new settlers. Besides advertising largely, his own firm, the Central Okanagan Lands, Ltd., spent from \$300 to \$500 each year in booklets.

The Mayor pointed out that, even after depriving the Hospital of its grant, all that would remain out of the usual appropriation for civic grants would be \$500.

Mr. Knowles drew attention to competition for settlers that Kelowna had to face from other towns, which got out fine booklets, and Kelowna would have to come up to their standard.

In closing the discussion, the Mayor remarked that the Council appreciated the importance of the matter, but it entailed a great drain on their resources.

they cannot be inserted in the current week's
issue.

THURSDAY, JUNE 1st, 1911

The Census

To-day marks the commencement of
the work of the census enumerators
throughout Canada. The gentlemen
in this district who will ask you the
most awkward and searching ques-
tions that statistical brains could de-
vise are Messrs. G. F. Budden, who
will enumerate the area from Mis-
sion Creek north to Woods Lake, in-
cluding Glenmore and a portion of
Okanagan Centre; Mr. Duggan, who
will count noses within the limits of
the City of Kelowna, and Mr. A. L.
Meugens, who takes the long stretch
of country from Mission Creek south
to Naramata.

Some people are unduly nervous about
the particulars they are asked to
furnish for the purposes of the
census, and a report has been cir-
culated by imaginative individuals
prone to believe everything they hear,
regardless of its probability, that the
facts obtained by enumerators will be
used for the purposes of taxation. To
explode this silly tale it is only nec-
essary to point out that the Dom-
inion government takes the census,
and that all direct taxation on real
and personal property is levied by the
Provincial government, which has noth-
ing whatever to do with the census.
Further, all enumerators are
sworn not to divulge any of the
information given to them in the
course of their work. The data col-
lected are used solely for statistical
purposes.

All orchardists who wish to in-
form themselves in regard to modern
methods of combating insect pests
and fungous diseases should make a
point of witnessing the work now be-
ing carried on by Messrs. S. M. Moul-
ton and W. R. Copeland in orchards
in the vicinity of town. These gen-
tlemen are in the employ of the pro-
vincial government and are equipped
with a power sprayer and the very
latest models of nozzles and all nec-
essary apparatus for the work of
spraying. They are in Mr. S. C.
Cosens' orchard to-day and will prob-
ably be in Mr. Harris' to-morrow,
and they will be glad to give any
information desired by enquirers in
regard to their methods.

Fifteen persons died in Chicago
from the excessive heat last Satur-
day.

The epidemic of bubonic plague in
Manchuria has died away in almost
as miraculous a manner as it came,
surprising medical men and foreigners
throughout China.

Coney Island, New York's play-
ground, suffered a \$3,000,000 fire
loss last Friday. Dreamland, famous
as an amusement park, was wiped out
and many hotels, theatres and res-
taurants were burned to ashes.

J. S. REDMAYNE

Champion's Quality of Irrigated Fruit

J. S. Redmayne, author of "Fruit
Farming in the Dry Belt of British
Columbia," has taken exception to
certain statements of a correspondent
in the London weekly, "Canada," and
writes to the paper as follows in re-
ference to irrigated fruit:

"Sir,—Once more, in the interests
of the numbers of people who are em-
igrating from England to start fruit
farming in Canada, I must protest
against the statement of Mr. J. B.
Fielding, an English land agent, in
your issue of April 15, that "apples
grown under irrigation have natu-
rally not so fine a flavour nor such
good keeping qualities as those grown
in non-irrigated areas."

"The question of flavour is, of
course, entirely a matter of personal
opinion, but the superior keeping
qualities of the apples grown under
irrigation is an established scientific
fact well known to the horticultural
expert, and, what is more important,
to the wholesale dealer, and no ac-
count of bare assertion to the con-
trary will make it any different. In
some parts of Washington and Ore-
gon, the States which taught us the
fruit industry, the prices of same va-
rieties of irrigated and non-irrigated
apples are quoted in parallel columns
in the local newspapers, with the price
invariably higher for irrigated fruit.

"I would refer Mr. Fielding to the
text-book by Professors Paddock and
Whipple, of the State Horticultural
Experiment Station of Colorado.

"After all, the fruit grower in
Western Canada is most interested
in the price he can get for his ap-
ples, and he will invariably find that
he can get a higher price for the
best grade irrigated fruit than for the
best grade apples grown without irri-
gation, simply because of the superior
keeping qualities of the former.

"This view was endorsed by all the
expert judges at the great Canadian
apple show at Vancouver last autumn,
who awarded 85 per cent. of the pri-
zes and certificates to the irrigated
fruit. At the same show, were ex-
hibited irrigated fruit that had been
kept two years in cold storage, and
were as fresh as the day they were
picked. The softer non-irrigated fruit
won't keep in cold storage like the
irrigated fruit, and therefore don't
realize the same high price. That is
the long and short of the matter.

"On the other hand, irrigated fruit
land of the best quality is costly, and,
because the Englishman is prone to
dislike what he does not understand
—he can't understand irrigation fruit
farming in England, because the cli-
matic conditions render it impossible
here—many English settlers are in-
clined to buy non-irrigated fruit land
when they get out to Canada. Let
them; but do not tell them that non-
irrigated apples are equal in keeping
qualities to irrigated fruit, because
such statement is both scientifically
and commercially wrong."

"A Winning Miss"

Max Bloom, the celebrated comed-
ian, heads the large company which
will present "A Winning Miss" in the
Opera House, on Wednesday, June 7.
The piece is musical comedy of the
best class with beautiful music, inter-
preted by a very large and power-
ful cast and chorus. No efforts have
been spared to stage it properly, \$40,-
000 having been expended on the
scenery, costumes and electrical ef-
fects. "A Winning Miss" carries its
own orchestra, and the company in
numbers is one of the largest on
tour.

If you enjoy a musical treat, don't
fail to see "A Winning Miss."—Adv.

The Penticton baseball team gave
Summerland an awful trimming on
Thursday, shutting them out com-
pletely from scoring while they piled
up a total of 11 runs themselves.

The Secretary of the Associated
Boards of Trade of the Okanagan has
received a letter from Gen. Supt.
Ford, of the Dominion Express Co.,
stating that no reductions in the
express rates on fruit in British Co-
lumbia are contemplated "as circum-
stances do not warrant us in making
any concessions at this time."

The town of Lang, Sask., is no
longer "dry." The failure of the
local option people to fulfill their
pledge to provide adequate hotel ac-
commodation has led to the reversal
of public opinion.

CORRESPONDENCE

Spearing Fish

Kelowna, May 27, 1911.

To the Editor,
Kelowna Courier.

Sir,— I have been informed that a-
bout a year or two ago the provin-
cial constable in this district got con-
victions against some parties for
spearing fish in one of the creeks.
How is it that down on the Fraser
River one can see from the C. P. R.
trains hundreds of thousands of sal-
mon being dried, all of them caught
by spears? If Game Warden Williams
thinks our people should be fined for
spearing fish, why does he not look
after those who are spearing them
on the Fraser and other rivers, for
that is what he is paid for?

Does Game Warden Williams know
what a "kiekaninie" is? If not, why
not? These fish, I understand, have
been used in the Tappen Siding Hat-
chery to propagate the spawn of the
salmon, and in fact was once in-
formed by a man who worked there
that they were considered to be a
2-year-old male salmon. If Mr. Wil-
liams would take this matter up it
might be very beneficial to the Pro-
vince as a whole. These fish will run
up all the creeks and into irrigation
ditches again this fall, so the sooner
something is done the better. All irri-
gation ditches should be screened to
prevent trout from going down them.

A curious feature about the B. C.
game laws is the fact that one can
only take trout "by hook and line."
What is to stop a man from doing as
many poachers do in Scotland, name-
ly attach a triple hook to a line and
when a fish is over it pull up and up
comes the fish. So much for the
game laws!

K. WAH.

NEWS OF THE OKANAGAN

Armstrong will celebrate the 1st
of July.

The new Baptist church at Sum-
merland has been opened for divine
service.

The uniform of the Penticton la-
crosse team is a green jersey and
white knickers.

Summerland College baseball team
defeated a Vernon aggregation on
the 24th, by 7-5.

A brick factory is to be started at
Penticton, a site having been ac-
quired by Groves & King, of Nelson.

At the Enderby celebration of Vic-
toria Day, the Enderby baseball team
defeated Salmon Arm by 19-9 and
Revelstoke 13-9.

Having attained the respectable age
of a fifth of a century, the "Vernon
News" has commenced publication of
extracts from its early files under
the caption "Twenty Years Ago."
Much of the matter is of interest to
old-timers.

The vacancy in Peachland Muni-
cipal Council caused by the death of
Mr. A. J. C. Clarence has been filled
by the choice of Mr. H. Hardy by
the Council, the ratepayers having ne-
glected to nominate anyone for the
position.

The wharf which the Kettle Valley
Railway proposes to build at Pentic-
ton will be 630 feet long, and will
have tracks and an apron to receive
cars from barges. In connection with
the new wharf, the C. P. R. will
build a large fruit-cooling house and
packing depot.

A petition has been presented to
the Summerland Municipal Council,
praying for the submission of a by-
law to borrow \$7,000 to be appropri-
ated to the Hospital building fund.
The signatures represent property to
the value of about \$1,300,000, being
more than the requisite 50 per cent.
of the assessed lands within the Mu-
nicipality.

The surveys are nearly complete of
the water power system at Pentic-
ton, construction of which is expect-
ed to start in July. The water will
be taken from Penticton Creek at a
point high up in the mountains, and
will be led for the first six miles in
a concrete culvert measuring 12 by
18 inches inside, on a gradual slope
averaging 8 inches in 100 feet. Two
miles above the power-house, which
will be about a mile and a half from
Penticton, a steel pipe will connect
with the culvert. From the point of
connection there will be a descent of
2,100 feet, and the pressure at the
power house will be 910 pounds to
the square inch, which will require
very heavy steel pipe.

BUSINESS STATIONERY

Too much stress cannot be laid upon the importance of sending out your correspondence in a manner that will create a good impression.

Do not save money by first attacking your business stationery.

Get The Best

The impression created by business stationery is lasting, and many a house has lost business owing to the fact that letterheads, billheads, statements, envelopes, business cards, etc., were got up in such a manner as to leave the receiver under the impression that such a concern was doing business in an attic.

BLANK BOOK WORK

With the recent installation of a power wire stitcher, perforating, punching and round cornering machine, The Courier is now in a position to execute orders for this class of work, in quality equal to that from city shops. Call and see samples.

LOOSE LEAF INVOICE FORMS

We always keep a full stock of Invoice Forms for the Simplex Loose Leaf System, and can supply them on short notice.

Send your orders for printed matter to this office. Our work and prices are always right and right always.

PERSISTENT BEGGARS.

The More Egyptian Mendicants Get the More They Demand.

In Egypt one should never give bakshesh except for actual services rendered. Resist calmly but firmly every attempt at extortion. Never pay till the stipulated service is finished; then, after you have paid a little more than the bargain called for, turn a deaf ear to the protestations and entreaties that always follow. Bear in mind that the more bakshesh you give the more clamorous becomes the applicant. Real thanks and gratitude must not be expected for gifts.

A friend of mine once broke one of these rules just to see what would happen. As we passed through a little mud village twenty miles from Cairo he gave a sturdy beggar a millieme (half a cent). This beggar, accompanied by others, followed us to the edge of the village, asking for more. My friend then gave him a plaster (5 cents).

They followed us a hundred yards or so and were more persistent than before. When they showed a disposition to go back he gave them 5 plasters. They followed us half a mile and became very clamorous. I was afraid we should get into trouble and wanted him to stop it, but when they began to lag he gave them 20 plasters.

They followed us two miles, and the experiment might have ended seriously had we not met a company of travelers with a dragoman, who sent the beggars about their business. This may help you to understand Egyptian character.—Christian Herald.

LAPLAND BABIES.

For Their First Few Months They Live in Wicker Baskets.

Little Laplanders spend the first few months of their existence in baskets of wickerwork provided at the top with a conical framework too close for the baby to fall through and yet giving the infant plenty of light and air.

Before commencing her work for the day the Lapp mother places her child in the basket and hangs it on the limb of some nearby tree, occupation being found for the little one by stringing toys under a cord passed across the top of the basket.

Thus provided the child spends the entire day in the open and yet at the same time is guarded from the troubles and dangers of outdoor child life in other countries.

The basket idea curiously parallels the Indian idea of strapping the paupers into a carrying case, but the Lapp baby has the advantage over its Indian fellow in that its limbs are unconfined and a certain amount of liberty of movement is afforded.

The child is carried from place to place in the same basket, the cord by which it is attached to a tree being slung over the shoulder.

Fossils and Gold.

In Alaska the bones and often the entire bodies of extinct animals, such as the mammoth, the mastodon, the reindeer and the bison, are found most abundantly in layers of soil directly above gold bearing gravels. So intimate is this association between fossil animal remains and auriferous deposits that one scientist who has explored Alaska says fossils serve prospectors as indexes of the metallic richness of the soil. In ancient times both gold and the bones of animals were deposited at the bottoms of valleys by action of rivers and smaller streams, many of which have now disappeared; consequently the appearance of fossils is, it is claimed, an almost certain indication that gold will be found in the neighborhood. The cabins of many miners are ornamented with huge tusks and antlers unearthed in the diggings.—New York Tribune.

Definite Instructions.

Telegraphers have their troubles. Like the rest of mankind, and the men who follow the dots and dashes tell stories based upon actual happenings that almost test the credulity of the hearer. A man now in charge of a Postal office is responsible for the following, which occurred to him when he was holding down a key in an obscure place in the suburbs:

"A farmer came in one day and handed me a message to 'Mrs. Smith, New York city.' I asked for the address, and my patron, looking at me with a pitying smile, replied:

"Sonny, you just send it to Mrs. Smith, who keeps a boarding house in New York. Don't let any one know you don't know where her place is."—Philadelphia Times.

Dumas' scene.

Alexandre Dumas, sr., was once visiting his son, who at that time lived in a villa near Paris. They sat in a tiny scrap of a garden behind the house under the one small tree it contained. It was a broiling hot day, and Dumas, who was very stout, said to his son:

"I am suffering with the intense heat."
"What shall I do, father?"
"Suppose you open your chamber window and let a little air into the garden," replied old Alexandre, with gravity.

OKANAGAN MISSION NOTES

(From Our Own Correspondent.)

Dr. Wansbrough Jones has left for the coast district on a lecturing tour for the provincial government.

The cement cricket pitch on the new ground belonging to the Sports Club is now almost completed, and it is hoped that it will soon be ready for play.

A Tennis Tournament was held on the Sports Club tennis courts, on May 24th, for mixed doubles. There was an entry of twelve couples, but only ten competed. The Tournament was on the American system, each couple playing every other couple, and the result was a tie between Mr. and Mrs. Fordham and Mr. Charter and Mrs. Mitchell, each couple winning 49 games out of a possible 72. The other couples were placed as follows: 3rd, Mr. and Mrs. Mallam, 42 games; 4th, Mr. Bartholomew and Miss B. Thomson, 41 games; 5th, Mr. Thompson and Mrs. Cann, 40 games; 6th, Mr. A. Beatty and Mrs. Harvey, 39 games; 7th, Mr. Burdakin and Miss Abbey, 38 games; 8th, Mr. and Mrs. A. H. Bell, 30 games; 9th, Mr. Oakeley and Miss Gray, 18 games; 10th, Mr. J. Thomson and Miss E. Thomson, 16 games. A Men's American Doubles Tournament without handicap has been arranged for June 11th, play to start at eleven o'clock punctually.

A large party of landowners from this district went into Kelowna last week to meet the Hon. Price Ellison on the subject of the possible abandonment of the proposed new road from Kelowna. It will be remembered that a petition for a new short road from Kelowna to join the present road which ends at Mrs. Thomson's property was extensively, one may say unanimously, signed last fall and sent to the Government, with the result that the Government instructed Mr. Hererson to inspect the proposed route and report. Mr. Hererson made his report, in which he advised that the proposed road was a very costly one to build and suggested another route which, in the opinion of several residents here well able to judge, was no shorter than the existing Swamp Road. There is a pressing need for a short road into town, and the petitioners estimated that the distance into Kelowna over the road suggested by them would be reduced by two miles and the long Swamp Road hill altogether avoided. With these two conflicting opinions as to the cost of making the road as asked for by the petitioners, it was decided to approach Hon. Price Ellison in the matter, and Mr. Ellison kindly consented to receive a deputation on the subject on his visit to Kelowna. Accordingly, some twenty or more landowners found time at this busy season to make the journey to Kelowna for that purpose.

Dr. Wansbrough Jones acted as spokesman and very plainly set forth the views of the petitioners in asking for a shorter road. He pointed out the urgent necessity of a shorter road for the benefit of those who have to haul produce or freight, as well as for those who have often to drive into Kelowna on business or for shopping purposes, and concluded by asking that a competent engineer be sent down to survey both routes and that, if the proposed short road were impracticable, the money might be spent on improving the existing road.

Mr. Walker and Mr. Hobson spoke briefly as to the possibility of making the road as suggested. Mr. Ellison then called upon any objectors to the proposed road to state their case, of which opportunity only Mr. Hererson took advantage in order to refute a suggestion made by one of the previous speakers that he had not made such a thorough examination of the proposed road as would give his report the value that it might otherwise have had.

No other objectors coming forward, Mr. Ellison made a brief speech, indicating the Government's desire to build the shortest and best roads that were possible, and wound up by promising that the Government would send down an engineer as soon as possible to survey both routes and make a report on both.

The meeting was largely attended, in addition to the landowners from O-

At the Okanagan Mission, there were present representatives from the Kelowna City Council, and the South Kelowna Land Co., with Mr. Hamilton Lang and Mr. M. Hererson.

Provisional figures returned by the census officers give the population of England and Wales this year at 36,075,269, compared with 32,527,842 in 1901. While most of the cities and counties show an increase, there are many cases, particularly in Wales, where there has been an actual decrease. The returns give Ireland a population of 4,381,951, a decrease of 76,824 since the last census was taken.

CANADIAN APPLES

Continued from page 1

careful selection of fruit in picking is essential. I am satisfied that an increased quantity of boxed Ontario apples can be absorbed here, and it lies with the Ontario packers to enter for the Scotch consumer's eye as well as his palate. The popularity of the King, Spy and Baldwin on this market is admitted on all hands, and granting the excellence of flavour of these varieties, buyers are influenced by uniformity of size, evenness of colour and cleanness of skin. The most popular size of Oregon Newtown Pippins here is from 96 to 112 apples per 40 pound case, the latter size preferred.

"British Columbia Fruit. — There were direct shipments of 1,653 boxes of apples this season from British Columbia. These arrived in good condition and participated in the high prices ruling. One parcel from Kelowna district, composed of Jonathan, Spitz, Newtown Pippin, McIntosh Red and Grimes Golden, were of excellent quality and condition.

"Pears.—The importations of Canadian pears to Glasgow indicate a growing demand, as 7,885 cases and half cases and 60 barrels were imported this year as compared with about 5,000 packages last year. Unless in seasons of very plentiful crops in France and Southern England (whence a large proportion of the Glasgow supply comes) increased quantities of pears could be absorbed from Canada. Of the total receipts, all, with the exception of 225 packages, were carried in refrigerator round 35 to 38 degrees, and all arrived in good condition, except a few barrels of Anjou which were decaying. The half-case package is the favourite package for all varieties except Keiffers, which may be safely packed in the 40-pound box or even in barrels. Very large quantities of Keiffers are marketed here from the United States, the bulk of which are sold to north and north-east coast of England buyers who attend the Glasgow market; and indications point to an increased demand for pears, both of Keiffer and more choice varieties, in coming seasons.

"Glasgow a Distributing Centre.—It may be of interest to learn that Glasgow is the chief distributing centre for Scotland in basons (Canadian and U. S. A.), apples and pears (Canadian and U. S. A.), Canadian bacon imports with the exception of about one per cent. are handled by Glasgow houses. Large quantities of U. S. A. imports on the other hand are consigned on a through bill of lading to northeast coast of England firms, cheap rates being offered by railway companies to Newcastle and district to compete with Liverpool. Glasgow is the great distributing centre for apples (Canadian and U. S. A.); quite 95 per cent. of the total imports of Canadian apples are sold in the fruit bazaar and central commercial sale-room; barely five per cent. of the arrivals are consigned to Aberdeen, Dundee, Edinburgh and Newcastle (England); the U. S. A. shipments of apples are practically all consigned to Glasgow houses. During the apple season buyers attend the Glasgow sales from Aberdeen, Perth, Dundee, Edinburgh, Leith, Dumfries, Ayr and practically all minor distributing centres of Scotland, as well as large buyers from the north and northeast coast of England. The English firms purchase a very large portion of the total imports of apples and the major portion of Keiffer pears."

The assessment commissioner puts Winnipeg's population at 151,000, an increase of 20,000 over last year.

During the past decade Canada has received nearly 2,000,000 immigrants, of whom 750,000 were from Great Britain and 700,000 from the United States.

The outlying sections of Ottawa suffered from a water famine for a short time last week, owing to the break-down of three pumps in the pump-house at Chaudiere.

A miniature cyclone, tearing up trees, overturning barns and sheds, breaking windows and causing general damage, visited St. Boniface last Thursday. Thunder, rain and hail accompanied the vigorous windstorm.

CITY COUNCIL

Continued from Page 1

On motion of Ald. Jones and Copeland, it was then decided to grant the sum of \$500 to the Board of Trade, for publicity purposes.

The deputation thanked the Council and withdrew.

By-Law No. 89, in regard to street sprinkling, was reconsidered and finally passed. It fixes a rate of 2 cents per frontage foot per month on Bernard Ave., from Abbott St. to Ellis St.; 1 cent on Pendozi St., from Bernard Ave. to Leon Ave.; and 1 cent on Water and Abbott Sts., from Bernard Ave. to Lawrence Ave.

Ald. Jones drew the attention of the Council to a statement of arrears for electric light, water and scavenging services prepared by the City Clerk, which showed several persons to be three or four months in arrears. He thought authority should be given to the Clerk to collect the amounts and the matter should be dealt with at once. The water and light services should be cut off after the expiry of two months from date when the account was due.

On motion of Ald. Leckie and Jones, it was resolved, That the City Clerk be authorized to collect through the Small Debts Court any payments 60 days overdue on water, electric light and scavenging, and that the water and electric light connections be shut off, the above to apply on all future liabilities of a like kind.

Mr. P. Brooke, who was in attendance, enquired if anything was being done about the opening of Wilson Ave. He complained that the lack of a proper street was causing delivery rigs to drive through his premises, with consequent destruction of trees.

The Mayor replied that he understood it was the intention of the Council to borrow some money to open up some new streets, including some south of Mill Creek, and Wilson Avenue would probably receive attention.

Ald. Dalgleish commented on the carelessness of delivery rigs in driving over trees.

Ald. Jones believed a temporary fill could be made on Wilson Ave. sufficient to make a ravine or slough on it passable until such time as the By-Law regarding new streets was passed. He suggested that the Board of Works might inspect the street during the early part of the coming week, and that they be instructed to take such action as was possible for making the street passable, provided it did not cost too much. Agreed.

Council adjourned to meet on Saturday, June 3rd, at the usual hour.

James Corkery, the well-known distance runner, won the Hamilton Spectator's annual race last week in 2:53.

Israel M. Ross, one of the best-known and most successful railway contractors of the early days in railway building in the West, died at Winnipeg last Friday after a long illness.

A large quantity of dynamite was found buried under the cables of the hydro-electric system, in Toronto last Friday, and it is feared that an attempt to put the system out of business was the reason of the cache of powder.

Three boating accidents on Empire Day resulted in six fatalities. Two couples were drowned near Winnipeg during a wind storm, and two young ladies who were sailing in a dinghy opposite the exhibition grounds, Toronto, also lost their lives. Their two male companions were picked up by a passing steamer.

Over 4,000,000 bushels of grain have been handled by the Montreal elevators since the 1st of May, and, although the staffs are working day and night, the grain is coming down so fast from Fort William and the west that there are not enough ocean steamships in port to take it from the elevators. The ocean boats are already booked to capacity for May, June and July, and the season bids fair to shatter all records.

LAND ACT

OSOYOOS LAND DISTRICT
DISTRICT OF YALE

TAKE notice that I, Roy Sweny of Okanagan Mission, B.C., occupation Rancher, intend to apply for permission to lease the following described land:—Commencing at a post planted on the shore of Okanagan Lake, distant 33 feet South and 200 feet West from the North-West corner post of Section 25, in Township 28, thence South 1 chain; thence east 1 chain; thence north 1 chain; thence West 1 chain to the point of commencement, and containing one-tenth of an acre, more or less.

Located April 21st, 1911.
ROY SWENY.
Date, May 16th, 1911 42-9

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Public Building, Cranbrook, B. C.," will be received until 4 p.m. on Monday, June 12, 1911, for the construction of a Public Building, Cranbrook, B.C.

Plans, specifications and form of contract can be seen and forms of tender obtained at the offices of Mr. Wm. Henderson, Resident Architect, Victoria, B.C., at the post office, Cranbrook, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, May 13, 1911.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department. 43-2

The resignation of President Diaz which occurred on Friday, has cleared the situation in Mexico, although many of the revolutionary bands are still unsatisfied. Diaz is very ill and the public jubilation over his downfall has depressed him greatly. Dictator and tyrant he has been, but the good he has done will live for ever in history and outweigh his mistakes. His was an absolute despotism, but one that made for order, material progress and the credit of the country. Mexico owes much to Diaz, the son of a shoemaker.

Forest fires in the United States last year cost the country the lives of 76 fire fighters employed by the government and the burning over of 5,000,000 acres of national forest.

The next meeting of the Ladies' Hospital Aid will be in the basement of the Hospital, by kind invitation of Miss Mitchell, on Saturday afternoon, June 3rd, at half-past three o'clock. The Society will be in recess during July and August.—Con.

The Committee of the Victoria Day Sports have decided to call a public meeting to consider the proposal of forming some permanent organization to control the Victoria Day Sports and also the fall races. The meeting will be held in Raymer's Hall, on Thursday, June 8th, at 8 o'clock.—Con.

A new and welcome feature in connection with the Aquatic Association commences today, when the Misses Hogarth and Oates open a tea room on the premises. This afternoon and every afternoon during the summer members and their friends will be able to have tea on the verandah and in such delightful surroundings the venture is sure to prove popular.

A public meeting will be held in Knox Presbyterian Church on Wednesday, June 7th, at 8 p.m., for the celebration of the 300th anniversary of the publication of King James' version of the English Bible. Addresses will be given by local ministers on the origin, advantage of and place in literature of the Authorized Version. Rev. J. Knox Wright, district secretary of the B. T. F. Bible Society, will also give an address on the work of the Society. An offering will be taken in aid of Bible distribution. All are invited.—Con.

Spring has passed into summer with startling rapidity during the past three days. After the delightfully sunny weather of March and April, May has been very disappointing and backward, but since Saturday old Sol has refused to be thwarted any longer in bestowing upon the Okanagan the mod of sunshine with which he is usually so generous, and the temperature has climbed up over the 80 mark in the shade. A few more days of the same kind and then hey! for the inviting waters of the lake, in which a courageous lady disported herself yesterday with full intent and not in the accidental manner in which some of the sterner sex have been rolling out of canoes and rowboats, to their great discomfort and the merriment of loungers on the esplanade.

A distinguished party of visitors arrived in Kelowna on Friday in the persons of Baron Ectvelde, his two sons and daughter; Mr. and Mrs. Andre Gouze, and Mr. W. H. Cross and daughter. Baron Ectvelde, who is a former Minister in the Belgian cabinet and one of Belgium's most prominent financiers, is president of the Belgo-Canadian Fruit Lands Co., and his visit was undertaken in order to inspect the local properties of the Company and the progress of the irrigation scheme now under construction. Messrs. Gouze and Cross are the Winnipeg directors of the Company. Saturday was spent in examining the progress of construction at different points along the route of the canal, the furthest point reached being on Second Creek, and on Sunday the visitors returned to Vernon, some of them by steam launch and the rest by automobile. All expressed themselves as much delighted with the country, still clad in its spring dress of verdant green, and with the progress of the work which will convert thousands of acres of bench lands into most desirable orchard sites.

Mr. Geo. Smith was a passenger to England on Saturday.

Mr. L. Norris, government agent, Vernon, was in town yesterday.

Mr. N. D. McTavish left on Tuesday on a business visit to Vancouver.

Mr. E. Davis, of the Water Branch of the provincial Department of Lands, went to Nelson this morning.

Mr. R. A. Fraser, of the "Courier" staff, went to Shuswap Lake on Tuesday, to spend a holiday with his brother, near Celista.

Mr. and Mrs. J. W. Milligan and Miss Milligan came down from Vernon on Saturday for a few days' visit to town.

Owing to the athletic sports and horse races on Victoria Day, the Rifle Association did not hold their regular practice last week.

Mr. Andrew McCrae, his daughters, Miss McCrae and Miss K. McCrae, and son, Mr. A. K. McCrae, arrived from Scotland on Saturday and are visiting Dr. and Mrs. McNaughton.

Mr. R. Mansfield has sold his 30-acre block on the K. L. O. Bench, about 26 acres of it in seven-year-old bearing orchard, to Mr. C. J. Fox. We understand the consideration was about \$30,000.

Dr. and Mrs. A. E. Martin left on Saturday for Vancouver, where, to the regret of many friends here, they have decided to resume residence. Dr. Martin having property interests there which require his personal attention.

A large number of friends accompanied the "Iolanthe" company and the lacrosse team to Vernon this morning. The "York" will convey the excursionists home during the small hours of to-morrow morning. The lacrosse match will be the first of the Okanagan League series, and it is to be hoped our boys open up auspiciously with a win.

To-day is being celebrated in town as a whole holiday instead of June 3rd, which is King George's birthday. Some dissatisfaction has been expressed over the change of date, but the arrangement is probably the best for all owing to the exodus from town to Vernon on account of the performance there to-night of "Iolanthe" and the fact that Saturday holidays are very inconvenient to week-end shoppers.

Mr. E. G. Fuller won the half-mile open at the Summerland races, on Victoria Day, with his fine horse, "Don E.", and took second place in the mile, which he lost through an unfortunate mistake, the jockey stopping at the end of the second lap under the impression that the whole distance had been covered. The track, however, is three laps to the mile, and "Baptiste's" horse darted past and succeeded in maintaining the lead till the finish, although "Don E." made a desperate and gallant attempt to recover the lost ground.

The appearance of the C. P. R. frontage on Bernard Ave. has been greatly improved during the past few days by the erection of a picket fence round the vacant portion of ground in front of the freight sheds. A sidewalk has also been laid down, which will provide access to the wharf in rainy weather instead of, as formerly, dodging round vehicles which invariably occupied the dry spots while passengers had to pick their way through the mud. The enclosed ground will be sown to lawn grass or brightened with a few flowers, should the good intentions of the C. P. R. not add another tile to the Avernian pavement.

That the Musical & Dramatic Society responded to a popular request in giving a third performance of "Iolanthe" was witnessed by the large audience, amounting to about \$250, that attended on Tuesday night. Our scribe, who saw the opera on the preceding Wednesday, enjoyed it as much as ever, but the audience seemed curiously undemonstrative during the first act, with consequent reaction on the players. Some of the prettiest songs received but scant applause, but the stiffness on both sides gradually wore off, and the second act was greeted with more generous appreciation. Those who attend amateur performances should remember that there is nothing more disconcerting to the players than apparent blank indifference, and even if they do not feel particularly enthused they should stretch a point and not grudge their applause, which acts as a most beneficial stimulant upon the performers. The audience during the first act on Tuesday night can only be described as wooden, and they have themselves to blame for any lack of swing in the opera. On the other hand, on Wednesday last, the audience keyed the players to a high standard of endeavour by frequent applause and liberal encores.

NEWS OF THE PROVINCE

A two-story brick building, to cost \$20,000, is under erection in Chilliwack for the Bank of Montreal.

Last Friday's issue of the B. C. Gazette is the largest weekly ever issued in the Empire, containing 494 pages.

The Nicola Valley Coal & Coke Co. have awarded a contract for a new Stewart coal washing plant and mill, costing \$40,000, to a Chicago company. The work will start at once on the company's Merritt property.

Mission City, on the main line of the C. P. R., is experiencing a boom that bids fair to make changes in the little town. Several new manufacturing firms have commenced operations there, and several others are on the way.

A jetty is to be constructed at the mouth of the Fraser that will do away with the necessity of constant dredging by causing the water to carry away sand and silt and automatically deepen the channel. New Westminster will soon have one of the best fresh water harbours in North America.

The long-delayed work of dredging the North Arm of the Fraser River is about to begin. The dredge King Edward has been engaged on the sandheads at the mouth of the river and at the wharves of several canneries, and after being fitted with a new pump she will be ready for the North Arm contract.

A store in Whonnock was held up last Friday by a man who shot and seriously injured Mr. D. E. G. Probert, a resident in the upper part of the building, who collided with the hold-up man. The man ran after firing the shot and in spite of strenuous efforts by the municipal and provincial police, he has not been discovered.

The future of Port Mann as an industrial centre, and entirely aside from its importance as the terminal point for the Canadian Northern Railway, is practically assured by the decision of several large industrial firms to establish works there on a huge scale. Steel mills, steel rail rolling plants, a plate glass works and big car shops are among some of the important industries for which plans are being made to locate at Port Mann.

An aerial tram line to convey saw logs from their limits to the mill will be constructed for the Campbell River Lumber Co., of Kitchener, next month.

A new bridge will be constructed by the government across the Coquihalla River, about a mile east of the town of Hope. The span of the bridge will be 144 feet and the cost \$9,000.

Lytton was threatened by fire last Friday and only a change in the direction of the wind prevented a conflagration. The home of Mr. H. Blanchford and one outbuilding were destroyed by the flames.

The building for the "Made-in-Canada Fair" at Vancouver, was constructed, early last week, by a force of 300 carpenters, who completed the huge building in just eight hours, creating a record without equal in the building trade of the Dominion.

The city of Kamloops has planned an extension to its waterworks and electric light systems at an estimated cost of \$100,000. Mr. H. K. Dutech, of the firm of Dutech, Maxwell & Gregory, has been engaged for the work, which will probably be undertaken this summer.

An immense ten-storey building is being constructed in Vancouver, at the corner of Granville and Pender Streets, which will cost over half a million dollars and, when completed, will be one of the finest on the Pacific coast. Eight stores will do business on the ground floor.

Work on the C. N. R. construction between Hope and Kamloops is going steadily forward. It is expected that the grading of the 60-mile stretch will be completed in a couple of months time, after which the laying of steel will commence. When the grading is finished the roughest and largest part of the work will be completed.

The work of planting the apple trees in the provincial government demonstration orchards in the Kootenay district is now completed, according to M. S. Middleton, assistant provincial horticulturist, who spent part of last week at Dr. Neal's ranch at Willow, which has been selected as the site for the local orchard. In each orchard an average of 500 trees have been planted. The varieties are Wagner, Jonathan and Northern Spy, with the exception of at Rossland where a few Winter Bananas have been planted. The other two orchards in this district are at Sullivan Creek and Brouse.

The stream of prospectors pouring into the Steamboat Mountain Valley is increasing in volume. There are about 50 arrivals in Hope daily, and about 90 per cent. of them are mining men. The reports from the mines are very assuring.

The New Westminster lacrosse team won the first league game of the season from Vancouver, on Empire Day, with a score of one goal. Two of the Vancouver team, "Newy" Lalonde and "Bones" Allen, were injured, and Allen will probably be out of the game for some time. The one goal was scored by Gordon Spring, the tricky red-shirt home player.

Recent reports by mining engineers indicate that Princess Royal Island will be one of the greatest ore-producing districts of B. C. in the near future. The island, 100 miles south of Prince Rupert, is difficult of access, but is a prospector's paradise, as the ore is found in quartz veins of great size, and the values are saved by free milling process and concentrating.

Vice-President Whyte, of the C. P. R., estimates the wheat crop of the West this season at 200,000,000 bushels.

The government has called for tenders for the construction of the first 185 miles of the Hudson Bay Railway, starting at Pas Mission.

The Canadian Locomotive Co., Ltd., of Kingston, Ont., has sold out to an English syndicate composed of Lord Glenconner, M. Pryor, J. L. Wood and F. R. S. Balfour. The capital stock of the company will be increased from \$500,000 to \$4,000,000.

So impressed are the fire insurance companies operating in Alberta with the necessity of the appointment of a provincial fire commissioner that they have decided to devote one per cent. of their total gross income in that province to the payment of salary and expenses of an official, if the government will appoint him.

Engineering parties have been sent out to complete the survey of proposed navigable waterways from Edmonton to Winnipeg via Saskatchewan river. It is expected the work of clearing and deepening channels will be begun next summer. Results of preliminary surveys last summer indicate that 10-foot waterways can be obtained from Winnipeg to Clear Lake and six-foot waterways for the rest of the distance to the foothills of the Rockies.

The following under-mentioned horses will travel during the season as stated below:

We Excel in Hammock Values

All our hammocks are extra well strung with heavy double cord. At the head of the spreader will be noticed the brass caps, giving strength and stability, and which prevents sagging. The cheapest line in stock is finished after the same style as the more expensive lines and capable of standing good heavy use.

\$1.90—ADULT SIZE—In strong colors, striped effect, with valance. Each \$1.90
\$2.50—FULL SIZE—Striped colors; various shades; extra heavy Each \$2.50
\$3.25—Made of hard spun yarn, richly colored, with great strength. Each \$3.25
\$4.25—Oriental stripe design, double spreader, very heavy cords, good pillow; a very attractive hammock. Each \$4.25
\$5.25—A very tastefully colored hammock, designed for hard wear, strong pillow, double spreader; carry any weight Each \$5.25

\$7.25—At this price we offer a hammock which will bear the most critical inspection; made of the best hard spun yarn with conventional design, cleverly executed. Last year the selling of this hammock was good, and we think it will prove a popular seller this season at. \$7.25
\$9.50—In this hammock we offer one of the finest productions on the market. It is made of double hard spun yarn in a strong double rib weave, extra large in size, fitted with larger double spreader, with a view to furnishing a particularly strong and well-made hammock. To properly appreciate the sterling qualities of this hammock it should be seen. Each \$9.50
